Springtime again; iris plants are reaching up, with promise of beautiful blossoms soon. We wish all of our customers the best Iris season yet. Our thanks to you who have sent us your fine orders. Our iris are growing well. We use compost as it helps root growth; we are experimenting with "Milk feeding" and "Antibiotics"; our soil is alkaline so we are trying "Iron Chelates" for they all help to grow the sturdy, vigorous, rhizomes we send to you, which produce quality blooms.

We guarantee stock true to name. We have no control over the growth in your garden, but if for any reason our rhizomes are not satisfactory, please write us about them and we will do our best to satisfy you.

If stock is sold out, we will refund your money. Terms are cash with order. We begin shipments about July 10th. Washington residents please include tax.

Again thank you to our old friends; and to our new friends, we hope you will give us a chance to please you.

We will be seeing you at the "Iris Convention" in Los Angeles, in April.
